The corrected or substitute drawings were received on March 29, 2002. These drawings are not acceptable. The substitute drawings are inconsistent with the drawings originally filed. Figures 2-7 do not correspond to originally filed drawings as the structure of the entire device has been altered in the new drawings.

The drawings filed March 29, 2002 are objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. Applicant is required to cancel the new matter in the reply to this Office Action, and to submit newly corrected or substitute drawings commensurate in scope with the originally filed drawings.

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Katsube.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kato.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
